

**PUBLICATION NO. 16. 1/95**

# **NORDIC CONCRETE RESEARCH**

**EDITED BY  
THE NORDIC CONCRETE FEDERATION  
CONCRETE ASSOCIATION OF: DENMARK  
FINLAND  
ICELAND  
NORWAY  
SWEDEN**

**PUBLISHER: NORSK BETONGFORENING  
POSTBOKS 2312, SOLLI  
0201 OSLO**

**OSLO, JUNE 1995**

ISBN 82-91341-10-9

Printed by Moberg & Helli A/S, Oslo

## CONTENTS

1.	Bjerkeli, L. THE NORWEGIAN PAVILION AT EXPO '92, DESIGN OF A FIBER REINFORCED CONCRETE STRUCTURE	1
2.	Goltermann, P. LIGHTWEIGHT CONCRETE WALLS AND COLUMNS: DETERMINING THE LOAD- CARRYING CAPACITY	10
3.	Klinghoffer, O. IN SITU MONITORING OF REINFORCEMENT CORROSION BY MEANS OF ELECTRO- CHEMICAL METHODS	27
4.	Lanu, M., Huovinen, S. FIBRE REINFORCED CONCRETE IN AN INVERTED T-BEAM	39
5.	Larsen, H., Ingholt, N.U., Goltermann, P. MOMENT CAPACITY AND SHEAR FORCE CAPACITY OF LIGHTWEIGHT AGGREGATE CONCRETE FLOOR COMPONENTS	56
6.	Leivo, M. WATER GLASS ACCELERATOR FOR HEAT TREATED PORTLAND CEMENT CONCRETE	70
7.	Plos, M., Gylltoft, K. FRACTURE MECHANICS ANALYSES OF THE SHEAR FAILURE IN A CONCRETE BRIDGE	83
8.	Vennesland, Ø. CATHODIC PROTECTION OF STEEL IN CONCRETE - EFFECT OF STEEL SURFACE AREA ON OXYGEN TRANSPORT THROUGH SUBMERGED CONCRETE	103

## **PREFACE**

The Research Committee of the Nordic Concrete Federation has the pleasure of presenting Volume 16 of the Nordic Concrete Research, NCR 1995/1. It contains selected papers on concrete research carried out or concluded before 1994 in the five Nordic countries: Denmark, Finland, Iceland, Norway and Sweden.

One of the tasks the Research Committee is to encourage also young Nordic concrete scientists to publish themselves and to increase professional contacts between concrete researchers worldwide.

I invite concrete scientists, also outside the Nordic Countries, to an open discussion on the papers presented. This discussion and the author's comments will be presented in the next issue of NCR, 1995/2. Replies to the articles in this volume have to be sent to me by October 1995 to the address on the opposite side.

The Nordic Concrete Federation arranges major triennial Symposia on concrete research where practically all Nordic research on concrete is presented. In the previous Symposium in Gothenburg in 1993 145 research projects were documented in the proceedings.

The next Symposium will be arranged 21 - 23 August 1996 at the Helsinki University of Technology in the City of Espoo nearby Helsinki.

For the first time the Symposium will have English as the working language both for the presentations and the proceedings. This enables our colleagues also from other European countries to join the Symposium and to get maximum exchange of the event. See the attached First Announcement of the Symposium for further information.

Helsinki, May 1995

Klaus Söderlund  
Chairman of the Research Committee
